VERSE 1:

I know the lipstick won't fix it
But I've gotta put my game face on
I wish Mascara could mask this
Until all the tears are gone
I've gotta paint the pain away
Make like - I'm ok
Pretend that I don't wanna stay
Act like this aint killing me

PRE CH:

I've tried One two three too many times
(To walk away)
I've heard one two THREE too many lies

CHORUS:

So I gotta pretend that I'm not gonna miss you
I gotta pretend that this is what I wanna do
I gotta pretend when I walk out that door
That I don't love you anymore
I gotta play the part act like it aint killin' me
I gotta play the part when you try stopping me
Hide what's written on my face
Dig deep in the makeup case
And cover it with Lipstick

VERSE 2:

I'm sick of looking in the mirror
Cause my mirror sees right through
MAC aint got enough concealer
To hide how much I'll miss you
I've gotta cover up my hurt
No more - getting burnt
I really need'a let you go
Cause my heart can't take no more

PRE CH:

I've tried One two three too many times
(To walk away)
I've heard one two THREE too many lies

CHORUS:

So I gotta pretend that I'm not gonna miss you

I gotta pretend that this is what I wanna do
I gotta pretend when I walk out that door
That I don't love you anymore
I gotta play the part act like it aint killin' me
I gotta play the part when you try stopping me
Hide what's written on my face
Dig deep in the makeup case
And cover it with Lipstick

BRIDGE

It's the hardest role I'll ever have to play
It's the hardest lie I'll ever have to make
To look you in the eye
And not break down and cry
When I say goodbye

End CHORUS:

So I gotta pretend that I'm not gonna miss you
I gotta pretend that this is what I wanna do
I gotta pretend when I walk out that door
That I don't love you anymore
I gotta play the part act like it aint killin' me
I gotta play the part when you try stopping me
Hide what's written on my face
Dig deep in the makeup case
So I gotta pretend that I'm not gonna miss you
I gotta pretend that this is what I wanna do
I gotta pretend when I walk out that door
That I don't love you anymore
I gotta play the part act like it aint killin' me
I gotta play the part when you try stopping me
Hide what's written on my face
Dig deep in the makeup case
And cover it with Lipstick
