You go to Paris as jems
I get that guy over then
and Leonardo walks outta ?
just as you were walking in

You got a V.I.P.
to the Black Eyed Peas
cause your new best friend cousins' dentist
did Fergie's teeth

Life in the fast lane
faking, they're trying to fit in
and there's no shame in ?? or Asian

It's a tough pill to swallow
when you swim with the shallow
you're just another pretty face in the city of sin

You're so Hollywood
haunted by my side
the lights, the lights
You're so Hollywood
don't you care to hide
You're afraid of heights, of heights

You're living the dream
you're painting the town
but what goes up must come down

You're so Hollywood
don't you care to hide
You're afraid of heights, of heights

It's ? top
and those sexy prada shoes
that everything you got so you got nothing left to lose
