[English Translation:]

[On your love:]

Baby you
Going away is driving me crazy.
My heart missing you baby.

Even when you're far from me
You still my baby
You still in my heart when I see you
I forget my pain
And I feel you beside me.
Even when you far form me

[2x]
On your love
I opened my eyes
I don't care if people see me
I wont leave you love
Take me back to your heart
Say good bye to my life
Just don't say good bye to me
After you I won't love again
I Swear

Let me live beside you and say I love you.
Your love is still living in me
I miss you a lot
Forget me.
Where are you why you don't ask
My heart is melting
Melting from your love
From your big heart.

[2x]
On your love
I opened my eyes
I don't care if people see me
I wont leave you love
Take me back to your heart
Say good bye to my life
Just don't say good bye to me
After you I won't love again
I Swear
