English Translation:

I'm crazy about him

From the first time he saw me

With his two eyes he stole me
The first love I saw
I don't know what happened to him

I am thinking maybe there's someone else in his heart.
Or my soul got to him.
If you go for all life. You'll come back and you will find
me heart still love you

I'm crazy about him

[2x]
I am alone so what's wrong
It's okay I don't need you anymore
The whole world is alone.
And you don't even bother asking

What you mean to me
The world's love better than your love.
My heart in broken witting for you I would never forget
it

What is he for me.
He's my baby and everything.
You left nothing in my heart.
I can't find anything that will show my feeling to you

[4x]
I am alone so what's wrong
It's okay I don't need you anymore
The whole world is alone.
And you don't even bother asking
