Did you ask another to come down to
Take your place and to pretend that
Fall is a charming season
I see a shrill light coming
I see that it's fading too
Did you ask another to be one
Fleeting dream
Gratitude had to come overflowing,
Under covered
Gratitude is coming rough and sharp
Puzzled over
That's what you see
I am gathering parts
And you're treasuring someone you barely know
Medicines for pain
Then full details in a single act show
Are letting you know I am chasing
Another
But dreaming another one

I drew the world today
It's surrounded by your smile
And something strikes me back when
You were laughing inside
Gratitude had to come overflowing
Under covered
Gratitude is coming rough and sharp
Puzzled over
That's what you see
I am gathering parts
And you're treasuring someone you barely know
Medicines for pain
Then full details in a single act show
Are letting you know I am chasing
Another
Dreaming another one
Did you ask another to know things
You never asked
