Steps on a curve and mishap that comes around
I'm still requiring merging for love's account

Outside, that's all you've got
You've got to stop it when you go for a ride
Outside, your touch rewards no more

Plunge into the dark side Having too much to drink
Planning to leave it Fire on the fingertips

Outside, that's all you've got
You've got to stop it when you go for a ride
Outside love ain't nothing 'till you feel the healing

Won't you recognize me, hold me, fraternize and be
there

As the moment comes along, do no wrong
Won't you memorize me, take me, emphasize and be
there
To avoid spinnin' around till you found
Won't you recognize me

Wanting to grab you wanting to feel your touch
Breathing desire the search which you denied,
Ambition marked to kill the feeling

Outside, that's all you've got,
You've got to stop it when you go, if you go, for a ride
Outside you ain't nothing, me means you, feel the
healing
