### "Grand Piano"

I'm siting at the grand piano  
Got plans to handle  
Gotta dripping down the ties like whacks on the candle  
set  
On the paddle back when I was only 19  
Tryin to teach some kids how to chase a pipe dream  
damn  
I ain't even been figure out you  
I just sold a couple beats  
Got a couple wild checks  
Got a couple outfits  
Got to put the rest away though  
I'm happy that I did, she got heavy...  
Way to way to pingle every time I'm sipping on they got  
modelos  
How she wanna label and she ain't bringin sheets to the  
table  
Hell no you can come and take a look though  
That glass slipper ain't fitting on your foot though  
I couldn't show her every little nook every cranny in my  
book  
I ain't planning to be hooked though  
Cook so good I almost reconsider  
That I just finish now another one is calling me to get  
up  
Shit I ain't complaining, I ain't complaining  
Boy you know what I've been and I ain't explaining  
I ain't debating, I ain't debating  
Time is all we got and no I ain't tryin to waste it no  
more, no more, no more  
No no, no no, no
