### "Ocean Paradise"

As I'm walking across the sand see the seabirds flying  
by  
Red and blue and golden and a smell like paradise  
I see flowers blooming bright and a rainbow in the sky  
Silhouettes surrounding me, ten thousand butterflies

Statues of silver and gold are leading my way  
There's a city across the light, there are waterfalls  
aside  
Some people cross my sight smiling friendly at me  
They seem surprised, but they're asking me to stay

There can't be greater life than here  
Nothing more beautiful than ocean paradise
