(Say) Here's a lesson, take advice

Si Â- lent tears mama fears he didn't want to

Live... (guitar solo / key change)

Fed by ev-o-lu-tion cre-a-tion, no so-lu-tion, science
ways of the world

Theories make facts for be-lie-ver, that boy
brainwashed in school

(Whisper fast) Fire trapped in his head, it's trapped in
his head, this fire extends, extends, it extends,
(Shout)a volcano erupts, (whisper fast) corruption out
on the streets, evil minded thoughts stir,
(Slowly get louder) prison extends, extends, it extends,
corruption on the streets

(Higher pitch)Do do do do do; temptingÂ-ing thoughÂ-
uhts temptingÂ-ing, toughÂ-uhts; do do do do do do
(Shout) Somebody help him! Somebody help him! Help
him! Help him! (Highter pitch) Do do do do do he's
going insane

Monkey want ah be, soil in the ground, your only
dirtÂ....

(Slow down) what's life for, what's my life for, tick tock
tick tock what's my life for, what's your life for????

(Whisper) Afraid of what's coming?

Blood shattered on the floor; he's knocking on your
door, no running away from fate,
Science shattered theories; now it's to (whisper) late.
