I'm watching my life disappear with out you
You're not here.
You're somewhere out there.
I can't find a trace
I'm losing my place
Spinning around,
Uncontrolable feelings.
Baby come and stay the night
Baby don't leave
Come and make some memories
I would spend my life
Trying to make you happy
I'd do anything for you baby
I can't find a trace
I'm losing my place
Spinning around,
Uncontrolable feelings.
Baby come and stay the night
Baby don't leave
Come and make some memories
Just to feel the warmth of your smile
Would make me happy for eternity
I could watch you forever
Nothing will stop us now
I found my place
We're spinning around
All our feelings out of control
Baby stay your life with me
Baby never leave me
