I am watchin(watching)
My life pass me by
I can't hold on (hold on)
Any longer
Can't you see (see)
What your doing to me
Life it was great,
Great with you here
My love for you was strong
I tried to hold on...
You gotta hang on
You gotta be strong
I didn't hang on
I let go
Let go of my life
Disappearing into the darkness
And so did my memories of you
I love the way you walk
I love the way you ramble
When your nervous
How your eyes brightn up
The room when we kissed
How could this have happened
When everythin was so perfect
Can't you see (see)
What your doing to me
Life it was great,
Great with you here
My love for you was strong
I tried to hold on...
