Baby where I wanna be is right where you are
Cuz when I'm missing you
You should see what runs through my head
You the only thing I can think about
While I'm lying here in my bed
And when the stars come out
I can't help but dream about
How much you mean to me
How much you make free
When you close that door
And lay down here
I can't help but think
Oh my dear
I wanna be with you forever
Never say never when it comes to loving you
And when the stars come out
I can't help but dream about
How much you mean to me
How much you make free
Yeah I see us here together
Forever and ever
With nothing getting in between
Cuz when the stars are bright
And we hold each other tight
I can feel your love getting in deep
