Visit "[Everybody's Leaving](#)" on [MotoLyrics.com](https://MotoLyrics.com)

There have been many times  
I could not escape your eyes  
I'll never quite understand  
How you need me, then you leave me

(chorus)  
Everybody's movin' and nobody's callin'  
I don't wanna be here, be alone  
You said it wasn't worth it  
I know i don't deserve this  
I don't wanna be here, be alone

There have been many times

When i see you cry then turn and cry  
I'll never quite understand  
If you need me, love me, leave me

Chorus x2

Everybody's moving away  
Everybody's going away  
Everybody's moving away  
Everybody's going away

Chorus x2

Everybody's moving away  
Everybody's going away
