My dear, I say goodbye tonight,
There's no return, it's a one-way flight.
Believe me, there is no way out,
I cried so often very loud
But nobody could hear me,
But nobody could hear me.

I was suffering day after day,
I hoped my pain would go away,
I lost my smile, I lost my voice.
Now I'm sure, I made the right choice
'Cause nobody could help me,
'Cause, 'cause nobody could help me.

I close the door, a last view back,
A cold icy breeze caresses my neck.
I open my mouth and try to cry
There's no return, no reason to lie
Because you wouldn't hear me,
Because you wouldn't hear me.

Please don't forget
The few days we had.
I know my dear,
You won't be sad
Because you never loved me.

I was suffering day after day,
I hoped my pain would go away,
I lost my smile, I lost my voice.
Now I'm sure, I made the right choice
'Cause nobody could help me,
'Cause, 'cause nobody could help me.

Please, please don't forget
The few days we had.
I know my dear,
You won't be sad
Because you never loved me.
