

Ella Blame "Another Side"

Visit "[Another Side](#)" on MotoLyrics.com

Let's go over to another side,
Where love is all around.
Let's go over to another side,
Just follow this sound.

Let's go over to another side,
Where death is no fear.
Let's go over to another side,
Just take my hand, I'm near.

I hear you coming,
Let's go through the night!
I hear you humming,
Is everything alright?

I hear you coming,
Never forget your goal!
I hear you humming,
Let's heal your atrophied soul!

Let's go over to another side,
Where love is all around.
Let's go over to another side,
Just follow this sound.

Let's go over to another side,
Where death is no fear.
Let's go over to another side,
Just take my hand, I'm near.

I hear you coming,
Let's go through the night!
I hear you humming,
Is everything alright?

I hear you coming,
Never forget your goal!
I hear you humming,
Let's heal your atrophied soul!
