It's just a simple melody  
Designed to haunt your memory  
It's bound to get you instantly

Oh, it doesn't help you to beware  
Before you even know it's there  
You're swaying to its catchy air

Dancing with your favorite thrill  
He will hold you closer still

And suddenly you'll both agree  
That dancing can be heavenly  
To just a simple melody

De de de, that melody  
De de de, keeps haunting me  
It's just a simple melody

De de, de de de, de de  
Duh duh, doo doo, de de  
De de, de de, doo doo de  
Oh, da da doo, dum de, doo doo, melody
