I know we're not the same and
I know that people change and
I know you're gonna find out
what life is all about yeah
I know that better days are
they're gonna come my way and
I know you're gonna find out
what life is all about yeah

I never felt this way before
this time i feel it so much more
I think I'm drownin in your flood
I just can't live without your love
your love

I know that people change and
I know you're gonna find out
what life is all about yeah
I know that better days are
they're gonna come our way
and I know you're gonna find out
what life is all about yeah

I never felt this way before
this time i feel you so much more
I think I'm drownin in your flood
I just can't live without your love
your love
