

Elle Madison "Behold The Fairytales"

Visit "[Behold The Fairytales](#)" on MotoLyrics.com

I come alive at night
When you derive
The chance to become
The next one, Fun?
Come, well downtown
Faces coincidence
Co-exist and chance
Can only arrive one time
My sign your sign
Libra all mine
Read my proclamation
Imitation be their last rhyme
If you saw me
Would you come rescue me
Or would you stand at the door
Just like my enemies

Oh well
Behold the fairy tales
They say I'll never make it
I could careless the evidence
Something's coming over me
I'm not gonna miss this train
I'll be living life
Before I'm ever sane

I wrote it
I writ it
Format and printed
Before you bit
'Fore you got the chance to get in it
I saved a life
A life is worth saving to me
It doesn't matter color or problems
Follow Destiny, Follow Destiny
My plan in the front
When I come
Come with me
No sense to await
I'm ready
If I ever become empty
Fill me up 'cause I will never get enough

Oh well
Behold The Fairy tales
They say I'll never make it
I could careless the evidence
Something's coming over me
I'm not gonna miss this train
I'll be living life
Before I'm ever sane

Rise above who pushes you down
Chances overcome outcome
When life takes you down
Rise above who pushes you down
Chances overcome outcome
When life takes you down

Oh well
Behold The Fairy tales
They say I'll never make it
I could careless the evidence
Something's coming over me
I'm not gonna miss this train
I'll be living life
Before I'm ever sane

You know You know You know
