Angel come back down to save me  
(Elle Madison)  
(Midnight Angel)  
Oh, it sees right thru me  
I can't see it back  
The face of you  
Where it's really at  
Oh, midnight Angel  
Could that be you?  
You were on my window just last night  
I walked upon you  
I did not ask  
You would not take my hand to bring me back  
Oh, midnight Angel  
Won't you please come back?  
I thought you were here to save me  
Now I've deemed untrue  
Oh, midnight Angel  
He sees right thru me  
I don't see right thru you  
But I know you  
Oh, midnight Angel  
Won't you please come back?  
You said you brought to save me  
But I'm track  
And they call me God  
And they call you God  
How can they call a human to be God?  
Oh, midnight Angel  
Please send them back  
Oh, midnight Angel  
Tell them where the truth is at  
Don't lead the people into sullen pain
