Am I the only, only  
My mind, down  
My mind, down  
My mind won't let me  
My mind won't let me  
Won't won't won't  
Am I the only one  
Am I the only one

The scene has close  
The seeds full grown  
My heart has change  
I'm leaving this game  
Oh, I'm leaving this game

I think my heart has trickled down to the floor  
I think my mind won't let me take this anymore  
The time has stopped from this thing I'm only in  
I haven't stopped to let a breather out  
Crying now, crying now  
The world left me before I threw the towel down  
Now the only story left is about to begin

Am I the only one  
Am I the only one

The scene has close  
The seeds full grown  
My heart has change  
I'm leaving this game  
Oh, I'm leaving this game

My mind  
Down, down, down to

My mind  
Down, down, down to  
My mind won't let me  
My mind won't let me  
Won't, won't, won't  
There's not enough true people left

Am I the only one?  
Am I the only one?  
'Cause when I speak up they only talk behind my back  
It's not about self  
You know I didn't  
You know I didn't

My mind, my mind, my mind  
My mind won't let me

The scene has close  
The seeds full grown  
My heart has change  
I'm leaving this game  
Oh, I'm leaving this game

Am I the only one?  
Am I the only one?
