By Bob Riley

It's been a long time since I've seen your face  
But I keep holding on to the pictures in my mind  
I don't mind waiting boy  
I'll give it some time  
'Cause you're all I need to get by

But you know how time flies  
And the dreams just drift away

Chorus:

(And) darlin'

Another breath is whispering  
Another voice has taken me in  
Another breath is whispering me away

I keep the candle burning  
On the window sill  
It gets no dimmer with the passing of time  
I never moved the furniture  
Don't want to rearrange  
I'm still living in the rooms of yesterday

Well you can knock on my door  
But I don't stay home much any more

('Cause)  
Repeat Chorus

But you know how time flies  
And the dreams just drift away

Repeat Chorus and fade
