[Verse 1: Bliss]

I feel the morning sun, walking to the bus stop,  
I got my backpack, books and my lunch-box,  
Let's travel back, so you can capture that,

Old school image like an [?]

I was on the 208, passing Castlecrag,  
Headphones pumping, listening to classic rap,  
Rocked up at school, yeah I was the misfit,  
Cause I had an accent, bullied by some bitch kids,

But this one dude, Max, he was a friend of me,  
We bonded over Cube, Eddie Murphey and Public  
Enemy,  
Reciting lines, we rap and laugh in a free state,  
Rolling with our handicap mates, so we can be late to  
class,

Shout out debates, we couldn't hear one teach,  
In the back, sharing an ear-bud each,  
Just waiting for lunch, when it was B-ball galore,  
And back then, I swear we were gonna be pro for sure,

After school, I went to JP's fortress,  
He made beats, and that's where me and Macka  
recorded,  
See and I could given him my first beat machine to rock  
right,  
Cause we couldn't figure it out, like 'What the fuck is  
quantise?'

Then Tarik came over for the first time,  
Blowing us away, we cussed to compliment the verse  
rhyme,  
Like the missing piece, seeing him perform,  
And that's the night baby BNE was born, what a day!

'Home is where the heart is so we're partners[?] right  
here...'

[Hook x2:]

Going down the road, that I know is my home,  
It's alright,  
It's okay, yeah,

[Verse 2: Eso]

(Yeah, yo, yo, yeah...)

I awake feeling great while my queen's asleep,  
My best-friend and love is what she means to me,  
She pulls pranks when I least expect it,  
Try'na make me laugh while I'm eating breakfast,

Wife-beater on, throwin' out the garbage,  
Realising that home is where the heart is,  
Take the dogs for a run in the park,  
A sneaky billy then we jump in the car,

Check the fuel, I hope we got some,  
Let my baby drive, rapper's ride shotgun,  
Then we play fight, when we choose songs,  
Then we compromise, and throw a groove on,

Where we go next, built another chapter,  
As long as we're together then it really doesn't matter,  
cause,  
We're two lovers on an open road,  
Where we're going brother, no-one knows,

We connect, and make the world stop,  
I'm only half here, if my girl's not,  
Cruisin', hearing barks from the back,  
Freestyling while she laughs at my raps,

We're a team, it's a dream and I'm loving it,  
They're only jealous cause they know can't fuck with it,  
It's the simple things that make the world spin,  
From my dogs, to my job, to my girlfriend!
