(Interview)

â€œWhat were some of the things you learned, or focused on to get, to get through to get by?â€

â€œJust this idâ€”this insane belief in my own ability to manifest things. Insane belief, you know that I think that itâ€™s ultimately complete sanity But I believe that we are creators and I believe that we create with every thought, and every word isâ€! Every moment is pregnant with the next ?? of your life

(Eso)

Yeah

New outlook, new angle, new view

New channel, I surf the frontier

With extra with extra focus

My minds third eye reflects the opius

I see you, you see me

Thatâ€™s one love, lets be free

Then paint the town

Red as roses

Sky high until the heavens open

I bleed for it

I cry for it

Iâ€™m free falling

My minds orbit

Chase that dream but youâ€™re never gonna get it

So I live that dream 24/7

Iâ€™m out there tryna kiss that sun

Reminiscing how kids have fun

Timeless you better watch this shit

And Find us where the clocks donâ€™t tick

(Chorus)

It's you, it's you, it's all for you

Everything I do

I tell you all the time

Heaven is a place on earth with you

Tell me all the things you want to do

(Bliss)

He sails and rides the tide
With a dream inside his mind
Blood orange moon illuminates the room
From a dark blue hue to a fiery sky
See the heights that he hovers
What a flight what a life full of wonder
Like when somehow those stars lined up
And he made the winning shot dropped right at the
buzzer
He can do it because he knows the mission
He can paint the picture
He can hold the vision
He's in full position with sonar thinking
He can hit those goals like a home in vision
So on a trip from the maritime
He makes it lift like a paraglide
And he soars to the heavens
Watching his whole world flip and shift for the
paradigm

(Chorus)

It's you, it's you, it's all for you
Everything I do
I tell you all the time
Heaven is a place on earth with you
Tell me all the things you want to do

(Interview)

"I think people need to believe in stuff. And I think
you need to believe you're involved in something
here. Believe this whole thing's your imagination. You
know?"

"Like you're in charge. I gotta live my life that
way."

(Eso)

Remember those games we used to play
Like you get one wish and chose your fate
Or a magic power you can have for hours
That's what I wanna do today
But you made me begin to start
Thinking heaven is within the heart
But we'll miss it
Tryna grip the stars
Sky rich and fast

(Bliss)

He's learned lessons, kept in his tale
Felt like they were etched into brail
He hammers anything yet to be nailed

Any mountain any wall thatâ€™s yet to be scaled
There he goes, set to his trail
He wont step until the breath in him fails
In a boat that he built with the world in his hands
Space riding on destinyâ€™s sail

(Chorus)

It's you, it's you, it's all for you
Everything I do
I tell you all the time
Heaven is a place on earth with you
Tell me all the things you want to do

(Interview)

â€œ So you just gotta keep going and look at this as a wonder, look at it as a trip. You Know. Just go on this trip and just look at all this stuff. Itâ€™s fantastic. Youâ€™re actually here and you got a dream. You got to look at the dream as the actual thing.â€

â€œThatâ€™s the fun partâ€

â€œAnd look at this time as a time where youâ€™re really, really having fun.â€
