Another day trying to find my place
Caught in the crowd I'm just another face
Trying to fly learn how to fall
It's never enough when you want it all
I can't give up give up
You gotta believe

This is for those who are chasing the impossible
this is for everyone who's lost themselves
Carry on carry on
Your time will come

Shooting for stars waiting for take off
I'm here in the sun why do I feel so cold?
I wanna run before I can walk
It's never enough when you want it all
I can't give up give up give up
You gotta believe

This is for those who are chasing the impossible
this is for everyone who's lost themselves
Carry on carry on
Your time will come

Don't ever stop believing
Don't ever stop believing
Don't you stop believing
Don't you stop believing
