If a plane crashed into my room
I wouldn't even flinch
I couldn't try to move
My mind is on you
My mind is on you

If the streetlight smashed above me
I wouldn't move an inch
Turn the glass into stars
And your face is the moon
And the night turns to you
Cos my mind is on you

You've got me caught in a place
Panic for a minute
Got my brain in a daze
I wish you weren't in it
There are so many ways
To lose your attention
You can break everything
But so I can take anything

I can take anything
I can take anything

If electric charges shock me
I smile and fold my arms
I feel nothing new
Because my mind is on you

My mind is on you

And if the floor gives way to my shoes
I wouldn't try to fly
I can't explain why I feel
I always feel you

I always feel, always feel you

You've got my caught in a place
Panic for a minute
Got my brain in a daze

I wish you weren't in it
There are so many ways
To lose your attention
You can break everything
But so I can take anything

Your the heat in my bones
But you break me with stones

You're the heat in my bones
But you break me with your stones

If a plane crashed into my room
I wouldn't even flinch
I couldn't try to move
My mind is always on you
My mind is always on you

Caught in a place
Panic for a minute
Got my brain in a daze
I wish you weren't in it
There are so many ways
To lose your attention
You can break everything
But so

Even when I'm caught in a place
Panic for a minute
Got my brain in a daze
I wish you weren't in it
There are so many ways
To lose your attention
You can break everything
But so I can take anything
