Take my faith in your hands,
we got a lot that hasn't near begun
Something is calling us, we're breaking free,
I'm curious, I need to see

Like a flash before our eyes, rolling to the night,
And if it feels like you're dreaming,
Believe it, believe it

Yeah

We'll have to wait 'till the morning,
The sun will never go down.
And we'll be this way forever,
I guarantee you now.
Just stay awake, just stay awake,
You can tell us all about it
Just stay awake, just stay awake

Bring me down, side by side,
While our reflections pick up all this collide.
So full of energy, nothing to hide,
No need to sleep, we come alive,

And if we're gonna take this right,
We can go wherever we like
And if it feels like you're dreaming,
Believe it, believe it

We'll have to wait 'till the morning,
The sun will never go down.
And we'll be this way forever,
I guarantee you now.
Just stay awake, just stay awake,
You can tell all us about it
Just stay awake, just stay awake

Believe it

Take my faith in your hands,
we have a lot that hasn't near begun
Something is calling us, we're breaking free,

Iâ€™m curious, I need to see.

Our dreams, it was lower than this
like a flash before our dream
it was lower than a dream

Like a flash before our eyes, rolling to the night
And if it feels like youâ€™re dreaming,
Believe it, believe it

Weâ€™ll have to wait to the morning,
The sun will never go down.
And weâ€™ll be this way forever,
I guarantee you
Just stay awake, just stay awake,
You can tell all us about it
Just stay awake, stay awake.
