Call the village band out  
Bid me good bye  
Everybody stand outside and cry  
Never thought so many  
Thought me so dear  
I'd be happy any place but here

Chorus  
One way ticket take me anywhere  
North bound south bound i don't even care  
I know the grass is greener there

People in the city  
Leave you alone  
Everyday is pretty much your own  
One among the many

Year after year  
I'd be happy any place but here

Chorus  
One way ticket take me any where  
North bound south bound I don't even care  
I know the grass is greener there

Bridge  
Look over the passing train  
And there I am  
No matter were I am  
I'm passing through

Chorus x 1  
One way ticket take me any where x 2
