I'm waiting  
You did that all for me  
It's such a dream  
You made me believe  
So tell me  
Why does everything come to an end  
It's not up to me

And I can't forget  
All the good times I had with you  
I won't regret  
I'll say it once again  
I can't forget  
All the late nights I spent with you  
I can't forget

I'm waiting  
You did that all for me  
It's such a dream  
You made me believe  
So tell me  
Why does everything come to an end  
It's not up to me

And I can't forget  
All the good times I had with you  
I won't regret  
I'll say it once again  
I can't forget  
All the late nights I spent with you  
I can't forget

It's your turn  
An hours gone by  
And still you haven't said it  
Your there all alone  
But lately  
I'm stranded here  
And screaming on my own  
Someone help me

And I can't forget  
All the good times I had with you  
I won't regret  
I'll say it once again

I can't forget  
All the late nights I spent with you  
I can't forget  
Can't forget

So hold me down  
I'm breaking out  
I'll never spend a week without you  
So hold me down  
I'm breaking out  
I'll never spend a week without you

I can't forget  
All the good times I had with you  
I won't regret  
And I'll say it once again

And I can't forget  
All the good times I had with you  
I won't regret  
I'll say it once again  
I can't forget  
All the late nights I spent with you  
I can't forget  
I'll say it once again

So hold me down  
I'm breaking out  
I'll never spend a week without you (x2)

And I can't forget  
All the good times I had with you  
I won't regret  
I'll say it once again  
I can't forget  
All the late nights I spent with you  
I can't forget

So hold me down  
I'm breaking out  
I'll never spend a week without you
