I heard you fall  
I thought of all the years we spent  
They seem so far away now  
A broken heart  
Left undone  
Turn to imaginations  
Letting go seems so hard  
Lighting up and burning out

My lucky star

So I might try  
To bring back what we had back then  
The time is moving quickly now  
Still out of reach  
Giving in I start to fall to pieces  
Letting go seems so hard  
Lighting up and burning out  
My lucky star  
My lucky star

Things are burning out  
Things are burning out  
Sometimes ??? moving on  
Soon we'll fall to pieces  
Soon we'll fall to pieces

'Til then we're still too far  
Gazing at that lucky star

My lucky star  
My lucky star  
My lucky star (keeps on burning out)  
My lucky star (keeps on burning out)  
Tonight
