Future butterfly gonna spend the day higher than high
You'll be beautiful confusion
Oh once I was you

I saw you caught between all the people outmaking the
scene
And a bright ideal tomorrow
Oh don't go too far
Stay who you are

Everybody knows
Everybody knows
Everybody knows
You only live a day
But it's brilliant anyway

I saw you in a perfect place
It's gonna happen soon but not today
So go to sleep and make the change
I'll meet you here tomorrow

Independence day
Independence day
Independence day
