seasonal its gonna change seasonal its back and forth
again cure the cause cause will change cure it all will
be back again seasonal its all the same seasonal right
here seasonal youre gonna change seasonal right in
front of me feel you made a mistake see these colors
will change right in front of me the stars have warned if
the stars are made while the sailors gone then the bow
will break around the lunar moon if the sun has
changed by the time im gone then im to blame for the
set of one and the stars were made right in front of me
