Lyrics to God & Suicide :

I can live with god and with suicide  
the same thing holds if I close my eyes  
it's a truth so pure it can kill you dead  
a taste of heaven mixed with hell inside of my head

If a three-four cord can ignite a flame  
and a girl like you can forget my name  
then I'm that far gone in this crooked grave  
with a pistol for my creature and a feather for my day

When I do go down in a rain of toil  
with a hand in my satchel and my knees in the soil  
I can live with god and with suicide  
a lover in her calico, a pony stands at her side

I can live with god and with suicide  
the same thing holds if I close my eyes  
it's a truth so pure it can kill you dead  
a taste of heaven mixed with hell inside of my head
