Always, always, always, always.

Tonight again I gotta go away
And I'm thinking 'bout how to apologize for leaving you
alone ooh yeah
But I know there's nothing that I can say
To make it easier on your heart while we are apart

So here's something that you can take
To hold on to when you're lonely yeah
'Cause it's important to me that you believe

I might not always
Get to spend my time with you
And I might not always
Do all that I'm supposed to do
We have some bad days
But it don't change
That I always have and always will
I'll always love you girl.
I'll always love you girl.
I'll always love you girl.
I'll always love you girl.

I see the look you got on your face
And it's killing me to know that I
Am making you feel that way (making you feel that
way)
Somehow I've gotta make it okay
Believe me I dream you every night
And I miss you every day

So here's something that you can take (Ohhh)
To hold on to when you're lonely (lonely)
'Cause it's important to me that you believe

I might not always
Get to spend my time with you
And I might not always (Ooh-woah)

Do all that I'm supposed to do
We have some bad days

But it don't change (Don't change)
That I always have and always will
I'll always love you girl.
I'll always love you girl.
I'll always love you girl.
I'll always love you girl.

Tears fill your eyes
As time goes by
While I can't help that I am not always around
Girl lets not fight
You know I try
So for the time that I'm here can you love me now?

I might not always (Ohh baby)
Get to spend my time with you (Ohh-ohh-ohh)
And I might not always (Hey)
Do all that I'm supposed to do (I'm gonna do what I'm
supposed to do yeah)
We have some bad days (Oh yes we have yeah)
But it don't change (Don't change it)
That I always have and always will,
I'll always love you girl. (Ooh yeah)
I'll always love you girl. (Ohh-ohh)
You know I'll always love you girl. (Ooh)
Always, always
You know I'll always love you. (Always love you)
Always, always
You know I'll always love you. (Woah-woah, woah-woah)
Always, always
You know I'll always love you. (Ooh yeah yeah yeah
yeah)
Always, Always
You know I'll always love you.
