I'm ecstatic
I feel the magic
It's everlasting
I think that you were meant
to be alive on this very night
with me

I see, it clearly
the dream you hear about
and never truly think it's realistic
till it blows your mind

I never thought I could understand
I was such in need
and now I finally see

I see that some people fight for love
they stick with it
just can't quit it
some people hide from love
they run from it
cause they don't want it

when you got a love
and it's good like it should be
makes you never wanna give it up
cause you know that
some people die for love
I believe it's true
cause I'd do the same for you

You're the reason
the air I'm breathing
so don't go leavin
cause loving you is the only thing
that ever really touched my soul

I'm protective
of my blessings
glad I kept it
I never really thought
about the future

till I saw my life

finding it's purpose
so very worth it
and now I know that
love is really worth it

that's why some people fight for love
they stick with it
just can't quit it
some people hide from love
they run from it
cause they don't want it
when you got a love
and it's good like it should be
makes you never wanna give it up
cause you know that
some people die for love
I believe it's true
cause I'd do the same for you

It's hard to be
and good to keep
and once you're with it
its hard to leave
you cant help but run
wild with imagination

It'll change your life
from wrong or right
and then you'll touch,
touch the sky
and now I don't see how I made
it through the night

But I see how there's
some people who fight
some people fight for love
they stick with it
just can't quit it

Some people hide from love
they run from it
cause they don't want it
when you got a love
and it's good like it should be

makes you never want to give it up
cause you know that
some people die for love
and I believe it's true cause

I'd do the same for you

Some people fight for love,
(I don't want to do it no more)
Some people hide from love,
(It just feels so good)

When you got a love and it's good
like it should be
makes you never want to give it up
cause you know that
some poeple die for love
and I believe it's true cause
I'd do the same for you
