See every time, ya come around
I get this feelin'™ kinda cold
Shiver down my spine, try'na figure out
Why you wanna lead me down this road
Ya tendencies, with jealousy
Can leave a stain up on my soul
I lie awake at night askin to myself
Why can I never let her go

The girl is poison
Makin all kinds of enemies
She got that snake bite dynamite
She never was a good friend to me
The girl is poison
And I ain'™ t got no remedy
The girl is poison bring a brutha to his knees
And I can'™ t leave are alone
On and on

Been on the grind, a million times with you;
It'™ s got to take its toll
You think you got me whipped I'™ m not equipped
To deal with all these different highs and lows
'Cause you and I it seems, we'™ re like a runaway
train outta control
We'™ re heading down these tracks
Ain'™ t no turning back
Baby there aint nowhere to go

The girl is poison
Makin all kinds of enemies
She got that snake bite dynamite
She never was a good friend to me
The girl is poison
And I ain'™ t got no remedy
The girl is poison bring a brutha to his knees
And I can'™ t leave are alone
On and on
