Tears coming down  
I'll dry them now

Yeah

There'll be no crying tonight  
Cause I'm coming in  
I'm gonna make you feel better  
Girl you need a little shelter yeah

Hello how long you gonna be outside in the cold  
I know you feel safer alone  
And I know that you're thinkin'  
You're never gon' love again, no

Chorus:

Girl you, you, you don't have to worry about me  
As long as me and you in love you can let it fall Put it on  
me  
And I can be your shelter (girl I feel your pain)  
Let me be your shelter (come in out of the rain)  
Let me be your shelter (come and hear what I'm sayin)  
Let me be your shelter, your shelter

I don't understand why you're playin  
If your world's comin down then I wanna cover you  
Girl dry your eyes and come inside you're safe now  
Aw yeah yeah  
If he did you wrong you can blame it on me  
Assume all the damages now it's all on me  
And be for certain that I'll never hurt you  
I'll protect you

Tears coming down, I'll dry them now  
I won't let you go and I'll never let you down  
Girl I swear!

Girl you, you, you don't have to worry about me  
As long as me and you in love you can let it fall Put it on  
me  
And I can be your shelter (girl I feel your pain)  
Let me be your shelter (come in out of the rain)

Let me be your shelter (come and hear what I'm sayin)  
Let me be your shelter, your shelter

Hey I don't claim to be your savior but  
This is just how I get down  
You can call my name (dry your eyes, come inside)

Cause I understand what you've been through  
And I know just how to take care of you  
You will never be alone if that's what you fear  
Then girl just come on in yeah  
It's safe and warm in here (safe and warm in here)

I know he hurt ya  
Broke your heart made you cry never loved ya  
Girl if you left it up to me  
I would be your shelter, your shelter

Girl you, you, you don't have to worry about me  
As long as me and you in love you can let it fall Put it on  
me  
And I can be your shelter  
Let me be your shelter  
Let me be your shelter  
Let me be your shelter, your shelter

Tears coming down  
I'll dry them now

Tears coming down  
I'll dry them now
