When I can't see  
I'm still gonna find you  
And when I can't breath  
You will be my air  
When there's no more sound  
And nobody's listening girl  
When you cry out  
I'll still be hearing you  
I'll answer you  
Your all I need  
Girl your everything, your everything to me  
It's destiny we're supposed to be

Chorus

We're gonna live everyday together  
Our two hearts as one in love  
Till this life is done  
Forever ain't long enough  
This will last till the end of time  
And girl I swear I'll love you till the day I die  
And after that I'm still gonna try  
(Whoa whoa whoa whoa)

When we grow old time is not so friendly  
We'll still hold on cause we know it's not the end  
And when the lights go down we'll see forever  
So from now till then my heart will be for you  
Girl for you  
Your all I need  
Girl your everything to me  
It's destiny we're supposed to be

Chorus

We're gonna live everyday together  
Our two hearts as one in love  
Till this life is done  
Forever ain't long enough  
This will last till the end of time  
And girl I swear I'll love you till the day I die  
And after that I'm still gonna try  
(Whoa whoa whoa whoa)

If there's another life to chose  
Then I will sail away with you  
On a water bed of love  
Cause this bond will never break  
And time could never separate  
Just like the words I sing Can never sing enough  
One life is not enough

Chorus

We're gonna live everyday together  
Our two hearts as one in love  
Till this life is done  
Forever ain't long enough  
This will last till the end of time  
And girl I swear I'll love you till the day I die  
And after that I'm still gonna try  
(Whoa whoa whoa whoa)

And after that I'm still gonna try  
whoa whoa whoa whoa  
Girl I'm still gonna try  
whoa whoa whoa whoa  
I'm still gonna try  
whoa whoa whoa whoa  
And after that I'm still gonna try  
whoa whoa whoa whoa (x3)
