"The Bridge Is Burning"

Visit "[The Bridge Is Burning](#)" on MotoLyrics.com

In the beginning you and I were meant to be
Communicating was easier than 1 2 3
But now I'm missing something
that we just can't see
The bridge is burning
The bridge is burning

I lie awake and wonder where did we go wrong
Get outta bed and drift into another song
Try to get back to the place
where you and I belong
The bridge is burning
The bridge is burning

Can we stop out the fire before we get hurt
Can we turn around and see what we've learned
We're standing at the edge, just looking at the bridge
It's burning, burning
Can we find a way before we get lost
Can we figure out the price and the cost
We're standing at the edge, just looking at the bridge
It's burning, burning

I catch a ride just in time to see you look away
Reaching for words but still don't know just what to say
Holding on to reminisce of yesterday
The bridge is burning
The bridge is burning

Is this where it's going?
Do we part as friends or can we bring it back to the
start from the end?
Does it take falling out of love to fall in love again?
Oh The bridge is burning
The bridge is burning

Can we stop the fire before we get hurt
Can we turn around and see what we've learned
We're standing at the edge, just looking at the bridge
It's burning, burning
Can we find a way before we get lost

Can we figure out the price and the cost
We're standing at the edge, just looking at the bridge
It's burning, burning

Love, oh why, oh why ... why does it hurts so bad
sometimes
Love, oh why, oh why ... why does it hurts so bad
sometimes
Love, oh why, oh why

Can we stop the fire before we get hurt
Can we turn around and see what we've learned
We're standing at the edge, just looking at the bridge
It's burning, burning
Can we find a way before we get lost
Can we figure out the price and the cost
We're standing at the edge, just looking at the bridge
It's burning, burning

Can we stop the fire before we get burned
