V.1

Sunshine never hurt me so bad
I lay awake and I can't think
Clothes on the dresser, but not worn
Sometimes staring I don't blink

CHORUS

Fade away, let the sun shine, let the rain pour, let the
sky fall
Fade away, let the sun shine, let the sky fall on me
I have nothing left, I have nothing, nothing, nothing left
I have nothing left, I have nothing, nothing, nothing left
I have nothing left, I have nothing, nothing, nothing left
I have nothing left, I have nothing, nothing, nothing left

V.2

Rain pounds on the window pane
Days go by and I don't resist it
Melancholy moments surround me
Never left the spot you last visited

Is there an ocean to drown me
Whether I fade or fall, I don't care
Shallow depths just remind me
That I'm still here and you're not with me

CHORUS

Since the day you left I've been torn
Do I live like you never existed
Why do I cry at the slightest whim
Is there a label for my condition
Is there an ocean to drown me
Whether I fade or fall, I don't care
Shallow depths just remind me
That I'm still here and you're not with me

CHORUS

I have nothing left, I have nothing, nothing, nothing left
I have nothing left, I have nothing, nothing, nothing left
