

Ellison "Holiday Drive-In"

Visit "[Holiday Drive-In](#)" on [MotoLyrics.com](#)

Iâ€™m trying to remember everything
That we did earlier this evening
As I play back the night we just had in my head

We drove out to the movies
And caught the picture playing at 9:30
Fold down the seats so we can see the screen

And then tell me can you recall
The best night youâ€™ve ever had
With someone that you love

And watching movies on the drive in screen
Is better if you lie next to me
As I fumble and try to do the right frequency

And naming actors from scene to scene
You know them all and I was trying hard to keep up
Keep up with you

But tell me can you recall
The best night youâ€™ve ever had
With someone that you love

Cuz Iâ€™m sure that this has been
The most wonderful night
That Iâ€™ve ever spent with you
Or anyone

And just lying here with you is my favorite part
Cuz I never thought that I would ever fall this hard
The face on the screen is not who I came here to see
Your beautiful eyes and innocent smile is all I need

Iâ€™m trying to remember everything
That we did earlier this evening
