I think you should go now  
It's better when you're not around  
The constant phone calls  
And I have not picked up on a single one

Cuz I need some time  
Without you in my life

Chorus:  
And love takes so much  
And there isn't enough  
That I can give to you

It's not you that I love  
In fact there's been others that I've been thinking of

So don't take this to heart  
And don't tear yourself apart

Cuz there's others like me  
But no guarantees

(Chorus)

I tried and tried to leave you behind  
I tried and tried to keep you satisfied  
So much you wanted more  
So much you wanted more

(Chorus)  
And love breaks your heart  
And pulls it apart  
Right from the start
