The cloud is heavy dark
Seems like t'will rain all day
Like my broken heart
It cries so hard it says
I long, for you but I can't find you

Chorus:

Where are you?
Why can't I put my arms around you?
And let you feel that I miss you
Why should I hide myself from the world?
When I know that I love you

Can't see a ray of sun
Seems like the rain has stolen the hope
But I know this will come to an end
And by that time I'll say
I wish to hold you, but no, no I can't

Chorus:

Where are you?
Why can't I put my arms around you?
And let you feel that I miss you
Why should I hide myself from the world?
When I know that I love you

Bridge:

I love you so and I want you to know
I'll be with you, when you need me
I'll go, but

Chorus:

Where are you?
Why can't I put my arms around you?
And let you feel that I miss you
Why should I hide myself from the world?
When I know that I love you
