Close your eyes, you'll feel paralyzed
Colour shapes and shades all mingle
Suddenly it feels so bizarre
Faintly still you hear your heartbeat
Is it just an illusion?
Or a mainline infusion?
Welcome dreamer!
Take shelter in this world of surreality
Gain wisdom from the astral world
Look inside the eye of the mind
And find deliverance at last
Free from anxiety now
Everything's clear in your mind
You found your sanctuary now
Leaving all sorrows behind
In your dreams you'll be closer to yourself
Find a direction to your life
Dreams of good and dreams of bad
All experience you've had
Is it just an illusion?
Or a mainline infusion?
Dreams recalled seem so true and real
Waking up your lit with feelings
Emanating this new found might
Days that once were grey are shining
Dormant emotions awake
Tasting sweet to your mind
You see your goal way ahead
Shining like a beacon in the dark
Forever is here and now
It's not a trick of the light
You hear a silence within
Peace and love reunite
In everlasting burning light
You feel your aura expanding
Bathing in virginal joy
Just like a flower in bloom
Still in embryonic state
(you) Crave for an identity
Free from anxiety now
Everything's clear in your mind

You found your sanctuary now
Leaving all sorrows behind
In your dreams you'll be closer to yourself
Find a direction to your life
Don't despair when you feel in the shade
Wait and your dreams will lend a hand
