And so the gods decided:
Great is the fear for you,
When your eye takes the field against those
Who tried to raise against you.
Make your eye go down
And strike the mutineers with disaster.
The eye shouldn't rest in your forehead,
Now it has to go down as Â»Hat-HorÂ«...
... And the eye of Â»REÂ« mounts down
From his divine brow - down there on Earth
And strikes them with disaster...

Spirits darken the sky!
The divine guided missile is on it's way,
And it's especially directed by:
Â»EmnasutÂ« - first genius of the Sun-sphere
Â»GomahÂ« - first genius of the Venus-sphere
Â»EbvapÂ« - first genius of the Moon-sphere
Â»AschmunadaiÂ« - first genius of the Earth-sphere

We do not know, but they do, and they remember:
A liquid fire appears in the sky
The flash of life is radiating
The flash of death - we're surrendered
It's light shines! Shine on!
It's light shines! Shine on!

Mind power made the rocks sink,
And by this power the mass of stones will surface
again!
Legends kept the secret of their wisdom
And soon it will all be revealed,
Soon it all will be revealed

We are a particle in the ocean
Lost and safe like a tear,
We are born and lost in the ocean
Where is mercy with our fear?!
