Where are my arms
I'm missing you ?
I'm missing pain and movement
Where is the sun
I ? you know you true
my flesh dissolves in movement
I'm gliding into light and knowledge
across an heaven ?
reveil mon solei
I ? you I ? you
your body is your movement

? du solei
you live here ? suffere here
you start new life today
we're gliding into light and knowledge
across an everlasting pasture
into the everlasting future
future..... future.....future..... future.....
