I've spent my life in darkness
blind enslaved on the factory floor
and now a new sensation
lost at sea I can see the shore

I'm seeing trees growing
I'm hearing birds singing
I'm feeling rain falling
spring is coming
winters on the run
Each drop of rain's a heart beat
bringing life to this barren ground
with nature's cycle turning
seeds of creation all around

I'm seeing trees growing
I'm hearing birds singing
I'm feeling rain falling
spring is coming
winters on the run
stand up, stand up, face a world full of light
stand up, stand up, it's the end of the night
I feel, I feel, the rays of the sun
I feel, I feel, winter on the run
stand up, stand up, face a world full of light
stand up, stand up, it's the end of the night
I feel, I feel, the rays of the sun
I feel, I feel, winter on the run
