On the prow tonight  
While everybody's inside  
Out into the cold night  
I take my time  
The old man's gone away again  
Fixing it up north again  
So now I'm on my own again  
I'm glad to say  
I've got the time if you want it  
But everybody's got a watch around here  
But  
There goes the guy next door  
He's heading out the score  
If he'd only find the time for me  
But he's not hard to pull  
But he's beautiful  
Anyway he likes it's fine by me  
The motel is a long way  
My place is the wrong way  
Outside isn't so nice  
My fingers are ice  
Some guys buy you champagne  
Drive you to the mountain  
Offer you their cocaine  
And all their lose change  
I've got the time if you want it  
But I wouldn't cross the street  
Just the same  
But  
I've got the time if you want it  
But  
Everybody's got a watch round here  
But
