Written by Francis Lai and Hal Sharper  
Released as a US single in 1970  
Issued on the game's soundtrack  
If I say goodbye it  
I'll grieve you  
Denver means the whole world to you  
Girl it breaks me up just to leave you  
But I got things that I gotta do  
Got to take my guitar  
With one break  
I'm a star  
Girl I'll love you forever more  
But today I've got to make my way  
From Denver to L.A.  
Girl I know that you  
I'll make me stay  
But today I've got to make my way  
From Denver to L.A.  
There's a whole new life to be led there  
That's the place that I gotta be  
Guys are making mountains of bread there  
Reckon it could happen to me  
Lots of guys make the grade  
Just one break and I may  
And I'll bring it on home
