Say what you will but I'm a stinker  
I come crawling up out of my hole  
Dirt in my toes, dirt up my nose  
I'm a perfect curse to pest control

Seeds and weeds and muddy meals  
Crawling around the earth  
Down in the ground where the sun don't pound  
I hibernate in English turf

Better believe it, I'm a stinker  
Burning vermin stink  
Watch me get as high as a heat wave honey  
Tell me what you hound dogs think

Set in my styles with a beady eye  
I got connections with the underground  
Call me a common rodent boy  
Sitting here safe and sound

Some mole hill mother sauntered by  
Acting like the ace of spades  
Don't give that cutey no reason to shoot me  
When I'm living on the eggs she layed
