Stranded
And you have left the shores
And me
Stranded
And there's no way out of here
So close my eyes

Love lost again
Passage escape

I wish you were here
Close by my side
I feel so alone

I need you to say

A candle
To remember the day
No clouds in the sky
A candle
To remember the pain
The ones I have failed

Love lose again
Passage escape
I wish you were here
Close by my side
I feel so alone
I need you
Come save me
Come save me child
Cause I can't go on

I need you to say
